One platform for the whole job.

The phone that answers when you can't, the CRM that runs the job, and the invoice that gets you paid. Built for the trades.

Free-year offer: available to businesses that port or forward their business number to OneBy. Covers all business lines, normal business use; international calling off by default. Doors open October 2026; your free year starts the day your number goes live. Lines $15/mo per line after year one. AI Suite free for your first month, then $35/mo per user. Guest Passes: 3 included, then $0.99/mo each. Prices USD and subject to the terms at oneby.ai/terms.

Oneby.Ai

Your phone lines. Free for a year.

The offer we just made you, in writing. No card, no catch, and your number stays yours.

THE DEAL

Four steps, all in your favor

1. **Port your number, keep your number**
   The number on your trucks and your Google listing stays yours. We move it onto OneBy and it works day one: calls, texts, voicemail.

2. **Every line is free for 12 months**
   All the lines your business runs, free for a full year. After the year each line is $15 a month, and that is the whole phone bill.

3. **The AI answers, free for your first month**
   Miss a call and the AI picks up, gets the address and the problem, and leaves a ready-to-go job on your board. Keep it after the free month for $35 a month per user.

4. **3 Guest Passes included**
   Put the people you talk to all the time, a vendor, a property owner, a builder, inside your workspace so they stop calling you for updates. Three free, 99 cents each after.

No per-call meter. Ever.
Your busiest month costs the same as your slowest. The CRM and invoicing underneath are free forever either way.

WHY BOTHER

The 9pm call is the whole story

- **The phone rings. You're on a job.**
  Both hands full, and a customer with a real problem is calling.
- **The AI answers on the first ring**
  It asks what your dispatcher would ask: the address, the problem, when they're home.
- **You get the summary by text**
  What they said, what they need, in plain words. No voicemail roulette.
- **The job is on your board**
  Ready to schedule in the morning. That call never walks to a competitor.

The honest math
An example, not a promise: miss 10 calls a week, 4 are real jobs, you close half at a **$400** ticket. That is about **$800 a week** walking to whoever picks up. Run your own numbers at oneby.ai/missed-call-calculator.
